Chapter 1 by Pavehawk546

This wasn't supposed to happen...the mission, the op, it had all gone to hell the second that it started. Now here I was staring down the timer of a nuclear bomb ready to blow my ass to smithereens.

Fuck...was only thought going through my mind as I watched the timer descend below one minute. I looked back at my teammates hoping to find comfort in their eyes. All I saw was the reflection of terror that I knew too well was evident in my own as we all pondered on a viable course of action.

17 years an an agent and it had all come down to this...One wrong move and my friends and I would be vaporized. Sweat poring down my brow, I stared once again at the contents of the bomb

Trying to ease the ever growing tension, I chuckled and muttered to my companions behind me "Just another day in paradise huh guys?"
